International Research Awards on Computer Aided Design in Mechanical Engineering

CALL FOR PROFILE - CAD Awards

About Awards: ScienceFather takes the privilege to awarding the Industriest, Academicians, Researchers, Doctors, Scientist, and Regulators from CAD and Mechanical Engineering fields across the globe to its International Events. The CAD International Research Awards is an annual gathering. This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

Objectives: The International Events is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Event speakers.

Key Features and Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees listed on website.

Award Categories: Young Scientist Award | Best Researcher Award | Outstanding Scientist Award | Lifetime achievement Award | Women Researcher Award | Best Innovation Award | Best Faculty Award | Best Scholar Award. Institute/
Organization Awards: Excellence in Innovation | Excellence in Research | Excellence Award (Any Scientific field) | Best Research /Innovation Extension activity.

Topics of Award Subjects include, but are not limited to: Automated inspection | Computer aided machine design | Computer technology for design and simulation | Decision support systems | Demolition/remediation Design of mechanical and electromechanical devices | Engineering | graphics and sketching | Facilities management | Fluid mechanics | Heat transfer | Industrial engineering | Intelligent control systems | Leather technology | Logistics | Machine design | Machine elements and two-dimensional mechanisms | Management information | systems | Manufacturing processes | Materials selection and structural design | Mechanical maintenance | Operational research | Quality control | Robotics | Solid mechanics | Textile engineering
